NEW VOCA UNIVERSAL

Compact Speaking Pen

VOCA-PEN®

VOCA-STICKER SET

Let's talk!

Just touch a special sticker!

Pen: 150.9mm × Ø20mm
Sticker: Red, Blue, See-through tetronic.

Communication will be more fun with this Pen.

We developed an revolutionary VOCA(voice output communication aid)with a professor SATOSHI SAKAI at Department of Education of KAGAWA University, who is an expert in the special needs education field.

It's like a dream pen which you can record and play freely!

- Touching an accessory sticker with this pen, you can play message or music which you prepared. The recording operation is very easy, so it will be a friendly tool that you can record/play the voice of people around you.
- This lightweight and compact pen is possible to use at more wide range of situations compared with past traditional VOCAs, eg: daily living communication, schedule reminder, educational task, leisure, activities, ...etc. The sticker is able to rerecord as many times you want.

You can use this flexible pen with various ways depending on your ideas.

VOCA-PEN Q&A

Q Why this pen speaks with just a light touch?

A All stickers have invisible code in it. Then a camera at top of the pen detects it to play the recorded sound.

Q Is it easy to record a sound, truly?

A Press and hold the "mode" button. → press the "adjust" button. →touch a sticker with the pen. → speak to the pen what you want to record. → press the "adjust" button. That's it! You can rerecord as many times you want with this easy operation.

Customer's Voice

A teacher having a 4th year student girl with intellectual disability.

I feel this pen is one of revolutionary VOCAs.

I feel this pen is one of revolutionary VOCAs. She enjoyed using this speaking pen many times. Then she found out that she was able to communicate of her feelings with this pen gradually.

It's like a dream pen
